PROFILE

I spent four years in Japan's hospitality industry before deciding I wanted to build things that scale impact beyond one-on-one service. That took me through Le Wagon Tokyo's full-stack bootcamp (Ruby on Rails, JavaScript), and I'm now back in Argentina continuing a Computer Programming degree at UTN while building real projects like AgroSaaS, a farm-management app for Argentine producers. I work comfortably in English and Japanese from years in multicultural teams, and I'm looking for a junior full-stack or frontend role, ideally remote.

EDUCATION

Associate's Degree in Computer Programming, *Universidad Tecnológica Nacional, Argentina* **May 2026 ~**
Focused on software development, databases, object-oriented programming, algorithms, and web technologies.

AI Software Development Bootcamp, *Le Wagon Tokyo, Japan* **Oct 2025 — Dec 2025**
Intensive 9-week full-stack program focused on web development, databases, APIs, and AI integration. Pair programming, code reviews, and project-based learning to build Ruby on Rails & JavaScript applications.

TECHNICAL SKILLS

React	JavaScript	Ruby on Rails	Tailwind CSS	Git/GitHub
React Native	TypeScript	Ruby	RESTful APIs	AI Integration
Next.js	Supabase	PostgreSQL	HTML / CSS	Figma

PROJECTS

Nihongo Hero | *Rails, JavaScript, PostgreSQL, TTS API* | [/LeoCba07/Nihongo-Hero](https://github.com/LeoCba07/Nihongo-Hero) | nihongohero.quest

A gamified Japanese language learning app with RPG-style turn-based combat. Led 4-person team development of the final Le Wagon project in two weeks, designing database architecture, integrating VoiceVox TTS API, and serving as top contributor. Deployed as mobile-first PWA.

Jidou Navi | *React Native, TypeScript, Expo, Supabase, Mapbox* | www.jidou-navi.app

Crowdsourced mobile app for discovering Japan's unique vending machines, with an interactive map and gamified check-ins. Sole developer since early 2026 (started with a partner), owning frontend, backend, and mobile deployment. Currently in closed testing on Google Play Store.

El Alto | *Next.js, TypeScript, Tailwind, Sanity CMS, GA4* | [/LeoCba07/el-alto-website](https://github.com/LeoCba07/el-alto-website) | www.complejoelalto.com.ar

Freelance website rebuild for a 30-year-old family cabin rental business in Argentina. Built a smart contact form and chatbot that pre-fills WhatsApp with dates and guest count, solving an 80% incomplete inquiry rate. Integrated headless CMS for constant self-service price updates and Google Analytics for user statistics.

PROFESSIONAL EXPERIENCE

Front Office Host, Hyatt Centric Ginza Tokyo **Oct 2024 — Oct 2025**

- Managed high-volume workflows using Property Management Systems; resolved technical issues and coordinated with IT team for system troubleshooting

Front Office Agent, Okinawa UDS, Miyakojima (Part-time) **Apr 2024 — May 2024**

- Optimized data workflows and delivered bilingual customer service while maintaining accurate records

Restaurant Team Member, NOVA Holdings, Miyakojima **Jul 2023 — Apr 2024**

- Managed POS systems and trained new staff, improving team efficiency during peak periods

F&B Attendant, Tokyo American Club, Tokyo **Jul 2022 — Jun 2023**

- Served high-profile members, collaborating with diverse cross-cultural teams in premium setting
